

Boost Patient Wellness with Pharmacentrix: Unparalleled Cannabinoid-Rich Products

Pharmacentrix offers a range of premium CBD products, all made from 100% US grown hemp processed by our partner, Entoura in a USDA approved, cGMP hemp manufacturing lab. Our product categories include; **Full and Broad-Spectrum Tinctures, Full and Broad-Spectrum Gummies, Full-Spectrum Topicals, and Full-Spectrum Soft Gels**. Our full-spectrum and broad spectrum whole-plant actives are carefully formulated to work in harmony with your body's endocannabinoid system. They contain a unique blend of phytochemicals, including minor cannabinoids and terpenes, that work together to produce powerful benefits. PharmaCentrix formulations have been specifically designed to improve sleep, energy, stress, pain relief, and general wellness.

All PharmaCentrix products are tested for potency and safety by a USDA/DEA registered, ISO/IEC 17025 accredited third-party lab. **Full-Spectrum products contain THC levels below the federally mandated limit of 0.3%wt, and Broad-Spectrum products contain non-detectable levels of THC (THC-Free).**
